

GUGLER Water Turbines GmbH is an internationally active and strongly expanding family-owned company, already in its third generation, which is engaged in the development, construction and distribution of hydropower plants.

Are you looking for a challenge with a future and do you want to become part of a young, dynamic team?
Then send us your application!

For our location in Feldkirchen an der Donau we are looking for

Sales Manager for Central Asia

Your responsibilities:

- Sales and marketing of hydro turbines and total power plants for international projects
- Definition of marketing strategies
- Preparation of quotations for water turbines and power plants
- Coordination with construction, purchasing, technology and assembly
- Negotiations with customers and supplier
- Participation in sales meetings, trade fairs and conferences

Job Requirements :

- Education technical high school or university
- Experience in sales of machines or plants desirable
- Good knowledge in English and Russian language
- Driving licence
- Willingness to travel
- Pleasure in creative and independent work
- Good computer skills (MS-Office, Excel...)

We offer:

After the initial training, we offer you an interesting and varied field of activity in a collegial working environment, as well as the opportunity for professional and personal development..

The gross annual salary according to the collective agreement is at least € 45,000; depending on actual qualifications and professional experience, overpayment in line with the market is customary!
